About Us

Trimlite is a balustrade, fencing, louvres and screens group servicing the home owners and builders. We began operation in Tuggerah on the NSW Central Coast over 30 years ago.

The company initially serviced the Central Coast market with a strong emphasis on providing outstanding customer service.

In 2007 Trimlite expanded on its highly successful sales, marketing and installation system by introducing a unique franchise structure. Their franchise system has been monitored and refined over the last 3 years and now a limited and incredible opportunity exists for a select group of budding business owners

At Trimlite we are all about CUSTOMER SERVICE and CUSTOMER SATISFACTION.

It's what we do best, and it's what stands us apart from the crowd. We are an Australian owned family run business that has set out to change the way trades deliver products and services to consumers.

We train and retrain our team to look at everything from the client's perspective – not our own. And by building relationships with our clients, helping solve their problems and educating them on the product and industry we provide a service like no other.

Before you read on to discover how you can reap the rewards on offer, Mic Pilon, Director of Trimlite would like to give you some compelling reasons why you should take a few minutes from your busy day to read every word of this package.

Why Trimlite?

Don't Miss This Limited Chance To Become The Market Leader In Your Area!

Because of the success of our exclusive marketing system it means our local Trimlite franchisees can quickly become the market leader in their region.

And of greater importance is the nature of the Trimlite franchise model. You see we don't offer small regions that will be operated by a 1 man business like some service franchises. We offer a substantial region that when in full swing will dominate the area and as such require a large team of trained and dedicated people to provide solutions for the customers. This is why there are a only limited number of opportunities to become a Trimlite franchisee. And once that region is gone we don't add to it. You see we want our franchisees to have massive success which is why our model leaves plenty of room for growth of our franchisees businesses.

"Of the many businesses I have seen The Trimlite systems are by far the best out there. Any business would give their right arm to be able to implement this powerful marketing and business management system into their business."

Mic Pilon,
Business Advisory Institute

"The power of the Trimlite marketing system amazes us. The leads just keep coming in and all we have to do is service them. We are very grateful to be a part of the Trimlite team!"
